

STATE OF CALIFORNIA  
STATE WATER RESOURCES CONTROL BOARD  
**DIVISION OF WATER RIGHTS**

**ORDER**

APPLICATION 9923 PERMIT 5659 LICENSE 2876

ORDER APPROVING CHANGE IN PURPOSE OF USE,  
AND AMENDING THE LICENSE

**WHEREAS:**

1. License 2876 was issued to Dolly R. Alward on June 29, 1947, pursuant to Application 9923 and was filed with the County Recorder of San Bernardino County on July 30, 1947.
2. License 2876 was subsequently assigned to Galye M. Hutcheson.
3. A petition for change in purpose of use was filed with the State Water Resources Control Board (Board) and said Board has determined that good cause for such change has been shown.
4. The Board has determined that the petitioned change does not constitute the initiation of a new right nor operate to the injury of any other lawful user of water.
5. The license condition pertaining to the continuing authority of the Board should be updated to conform to Standard Term 12 as contained in Section 780(a), Title 23, of the California Code of Regulations.

**NOW, THEREFORE, IT IS ORDERED THAT:**

1. The purpose of use under this license shall be as follows:

Mining, Domestic, Irrigation and Fire Protection.

(0000003)

2. The continuing authority condition of this license shall be amended to read:

Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this license with a view to eliminating waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source.

Licensee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust. (0000012)

Dated: SEPTEMBER 18 1990

## License for Diversion and Use of Water

LICENSE 2876

PERMIT 5659

APPLICATION 9923

THIS IS TO CERTIFY, That **Dolly R. Alward** Notice of Assignment (Over)  
**Aradia, California**

has made proof as of **July 3, 1946**  
(the date of inspection) to the satisfaction of the State Engineer of California of a right to the use of the waters of  
**Lost Springs in San Bernardino County**

tributary to **Rattle Snake Canyon**

for the purpose of **mining and domestic uses**  
under Permit **5659** of the Department of Public Works and that said right to the use of said waters has  
been perfected in accordance with the laws of California, the rules and regulations of the Department of Public Works  
and the terms of the said permit; that the priority of the right herein confirmed dates from **June 3, 1940;**

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited  
to the amount actually beneficially used for said purposes and shall not exceed **fourteen hundred forty**  
**(1440) gallons per day from January 1 to December 31 of each season.**

This license is based on the use of water made during the year 1946, which  
was the year of maximum use within the three year period immediately preceding  
the date of inspection.

The point of diversion of such water is located **South twenty four hundred (2400) feet**  
**and East twenty four hundred (2400) feet from the Northwest corner of Section 22,**  
**T. 2 N., R. 3 E., S.B.B. & M., being within the SE $\frac{1}{4}$  NW $\frac{1}{4}$  of said Section 22.**

A description of the lands or the place where such water is put to beneficial use is as follows:

**Within the SE $\frac{1}{4}$  NW $\frac{1}{4}$  of Section 22, T. 2 N., R. 3 E., S.B.B. & M.**

All rights and privileges under this license including method of diversion, method of use and quantity of water  
diverted are subject to the continuing authority of the Department acting through the State Engineer in accordance  
with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or  
unreasonable method of diversion of said water, and to prevent unreasonable interference with vested

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from **rights.**  
time to time by the State Engineer.

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of diversion  
herein specified and to the lands or place of use herein described.

**COPY FOR FIELD ENGINEER**

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Department.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property can not agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
